## Safely Open for Business: The Importance of Signage + Social Distancing Solutions During and After COVID-19

As states begin to ease the restrictions placed on businesses during the COVID-19 crisis, responding to the social distancing rules in place while attracting customers can be a challenge. Before reopening, your business will need effective ways to communicate safety to your customers and employees — all of which will require effective signage and more.

### Communicating Safety

Businesses have taken extraordinary steps to protect employees and help ensure guests act responsibly according to CDC recommendations for social distancing. Directional signage, PA announcements, floor decals and other metering techniques are being implemented with safety as the primary focus. “Clean Cart” protocols, gloves, masks, and modified hours are quickly becoming the norm. Some of the most important messages that need to be conveyed on signage include:

- Online availability
- Designated seating
- Social distancing (6’ rule)
- Hours of operation or closures
- CDC guidelines and local laws
- Number of customers allowed inside
- Where to stand and traffic directionals
- Reminders to wash hands; wear masks

We don’t just help brands deliver smart marketing, we help you **Market Smarter.**

When maintaining six feet of distance is not possible, businesses have turned to partitions and barriers to ensure safety for their customers and employees. From DIY pop-up countertop sneeze guards to semi-permanent plexiglass barriers with pass-through windows — businesses have a variety of options to choose from during this critical time.

### Create A Safe Experience

Directional floor graphics, similar to what you see at grocery stores, can help guide employees and guests around safely. Additionally, floor graphics can assist with keeping social distance around seating, common areas and front entrances.

The plexiglass barriers that are now a common sight at checkout counters can be installed to keep employees and guests safe as well. Desk partitions are a great option for reception areas and client seating, acting as a cough and sneeze guard when welcoming guests. Additionally, safety partitions can serve as a divider between shared seating.

Reminding employees and guests to keep their distance, wash their hands and cover their mouths when coughing or sneezing can be achieved with targeted signage. Consider aligning your signage with the tone and design of your brand to keep the aesthetic consistent. Installing hand sanitizing stations and providing employees gloves and masks can further encourage personal hygiene.

### The New Normal

As new habits are created and businesses adapt to meet customer needs and public health requirements, this is an opportunity for your brand to express gratitude and empathy. Something as simple as thanking customers for their business will leave a lasting impression. Review all of our retail social distancing solutions — including print, partitions and barriers — all designed to mitigate risk during these uncertain times.
